

# Boyle Transportation Elevates Safety Standards with Fleetworthy's Complete Suite

## COMPANY OVERVIEW

Boyle Transportation is a nationally recognized leader in the transportation of sensitive, mission-critical cargo, including pharmaceutical goods and military materials. Known for its exceptional safety standards and backed by a long-tenured team, Boyle has historically set the bar for risk management and operational discipline in the fleet industry.

## CHALLENGE: SUSTAINING EXCELLENCE AMID OPERATIONAL TRANSITION

When a key compliance leader at Boyle retired, the company faced a unique challenge—how to maintain its rigorous compliance standards without the benefit of long-held tribal knowledge.

Despite being an industry model of efficiency and safety, Boyle's leadership recognized the opportunity to modernize its systems and further support its safety-first culture.

"We don't have the luxury of figuring things out as we go," explained Michael Lasko, Vice President of EHS and Quality. "We wanted to invest in technology that could preserve and enhance the excellence we built."

**BOYLE**  
We deliver security.™

## **SOLUTION: FULL ADOPTION OF THE FLEETWORTHY TECHNOLOGY SUITE**

Boyle turned to Fleetworthy for an integrated solution across safety and compliance, toll, and weigh station management. Specifically, they adopted:

- **Driver Safety & Compliance** tools to streamline driver qualification, HOS compliance, and incident response.
- **Vehicle Safety & Compliance** tools for centralized maintenance, licensing, and permitting systems.
- **Toll Management by Bestpass** to simplify toll operations and reduce administrative burden.
- **Weigh Station Bypass by Drivewyze** for uninterrupted travel and reduced delays.
- **Safety+ In-Cab Alerts by Drivewyze** to proactively inform drivers of upcoming risks, enhancing real-time decision making.

## **IMPACT: SUSTAINING AND STRENGTHENING A GOLD STANDARD**

Even as one of the safest fleets in North America—with no preventable recordable accidents since 2019—Boyle saw transformative benefits:

### **1. Strengthening Compliance Infrastructure**

Replacing retiring staff and building new leadership without compromising quality was made possible through Fleetworthy's technology, which automated much of the compliance workflow. "We can now meet the same goals with far fewer resources, while minimizing risk of violations or disruptions," said Lasko.

### **2. Reducing Administrative Burden to Reallocate Time**

By automating manual tasks like sending registration stickers and permits, Boyle reallocated valuable team time toward coaching and proactive safety work. "That's time we now spend coaching drivers and reducing incidents—things that truly move the needle," Lasko noted.

### **3. Empowering Drivers & Enhancing Retention**

With Safety+ proactive alerts and seamless toll and bypass services, Boyle has improved the day-to-day driving experience. "The more tools we can provide drivers, the better," Lasko said. "It improves their efficiency, safety, and satisfaction." Boyle's driver retention rate is an industry-defying 15%—compared to a 90%+ churn industry average.

### **4. Fostering a Culture of Continuous Improvement**

Boyle's ISO 9001 and 14001 certifications mandate continuous improvement, and Fleetworthy fits naturally into that ecosystem. "What we did yesterday isn't good enough for today," Lasko said. "Fleetworthy allows us to stay ahead while keeping our values intact".

## LOOKING AHEAD: A UNIFIED FLEETWORTHY FUTURE

Boyle has embraced Fleetworthy's evolution into a singular technology suite that merges toll, bypass, and safety tools into one vision.

"Time is our most valuable resource," said Lasko. "Consolidating our providers under Fleetworthy gives us time back—and that helps us protect our drivers, customers, and reputation."

## ABOUT FLEETWORTHY

Fleetworthy is redefining road readiness with trusted solutions that deliver fleet safety, compliance, and efficiency. With the only technology suite combining safety, compliance, toll management, and weigh station bypass, we enable fleets to simplify operations and perform at their best.

Already trusted by 75% of the top fleets in North America, Fleetworthy offers the largest bypass network and the most complete and adopted toll management solution. Our technology helps fleets reduce delays, cut operating costs, and gain critical financial visibility. Going beyond regulatory requirements, our compliance capabilities enhance fleet safety, reduce risk, and support proactive audit readiness.

Fleetworthy supports millions of vehicles and drivers and is recognized across the industry for innovation and leadership. We are defining the future of road readiness. Learn more at [fleetworthy.com](https://fleetworthy.com).
